

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) A sexual aid device, comprising:

a curved portion for insertion into a vagina or an anus, said curved portion having a proximal and a distal end;

a substantially straight portion, said straight portion extending from said proximal end of said curved portion thereby forming an approximate J shape; and

mechanical means for causing ~~a combination of movements of~~ both a vibrating motion of said curved portion and a movement of said distal end from one position to another position while said curved portion remains curved.
2. (Original) The device of claim 1 wherein said movement is arcuate.
3. (Original) The device of claim 1 wherein said movement is circular.
4. (Canceled).
5. (Original) The device of claim 1 wherein said movement is an extending movement.

6. (Previously Presented) The device of claim 1 wherein said movement is a back-and-forth movement.
7. (Original) The device of claim 1 wherein said distal end of said curved portion stimulates a female's Grafenberg spot or G spot when the device is inserted into the vagina with said straight portion pointing away from said curved portion towards the female's torso.
8. (Original) The device of claim 1 wherein said straight portion extends coextensively from said curved portion.
9. (Original) The device of claim 1 and further comprising a clitoral stimulation portion.
10. (Previously Presented) The device of claim 9 wherein said clitoral stimulation portion is a cup.
11. (Original) The device of claim 10 wherein said clitoral stimulation portion is textured.
12. (Original) The device of claim 10 wherein said clitoral stimulation portion vibrates.

13. (Previously Presented) The device of claim 9 wherein said substantially straight portion includes a cover having a plurality of buttons; said plurality of buttons coupled to said mechanical means and for imparting vibratory motion to said curved portion, back-and-forth motion to said curved portion and vibratory motion to said clitoral stimulation portion.

14. (Canceled)

15. (New) The device of claim 1 further comprising a means for selectively employing only said vibrating motion or only said movement of said distal end or a combination of both.
